What We Do

As a non-asset-based logistics provider, we specialize in managing complex shipments, with recognized expertise in the transportation of passenger rail cars components. Our services include:

Short & Long-Haul Trucking

Utilizing enclosed trailers (vans), flatbeds, and specialized equipment to meet your freight needs, no matter the distance.

Comprehensive Project Management

From single shipments to long-term projects, we provide full dock-to-dock support to ensure seamless execution.

Heavy Haul & Over-Dimensional Shipments

Expertly handling single or multi-load shipments, including those requiring over-dimensional or heavy-haul transport.

Consulting Services

Offering insights to optimize performance, reduce transportation costs, and ensure your operations run smoothly and efficiently.

Proven Track Record

ABC has a strong history of delivering exceptional transportation solutions to high-profile clients:

Kawasaki Rail Car (1994–Present)

Providing 70% of Kawasaki Rail Car’s trucking needs, managing \$12M+ worth of projects including acquisition, dispatch, and transportation using vans, flatbeds, step decks, and double drops.

General Electric (1994–2013)

Managed contract negotiations and provided logistics solutions, including the transport of a \$4M, 100,000-pound transformer from Florida to Colorado.

Anheuser-Busch, Chrysler, and Walmart (1994–2004)

Delivered contract negotiation and transportation services for U.S. van shipments, including large-scale logistics for high-demand periods.
